## VACUUM HOSE REEIS <br> U SERIES

COXREELS ${ }^{\circledR} V$ Series spring driven and hand crank vacuum hose reels are available in both vacuum only and vacuum/pneumatic combinations. Both are designed to extract unwanted fumes, particles and by-products from your work area. The vacuum/pneumatic models have dual plumbing for vacuum extraction while simultaneously powering pneumatic tools such as grinders and sanders in an enclosed efficient system.

## V100 SERIES MODELS

V100 Series

## KTOUSEAITS

- Direct hand crank reel with a solid one piece steel "U" shaped frame design
- Lightweight \& compact design makes this reel the ideal solution for commercial vacuum systems
- Direct connect port for vacuum hose with bullet cuffs
- Adjustable tension brake to prevent "free-wheeling" during operation, transport or storage

## Vilfoselis

- Sturdy all welded "A" frame base with a double supported steel axle
- Bevel gear hand crank
- Removable crank handle for compact storage
- Low profile outlet riser \& open drum slot design, provide a non-crimping, flat smooth hose wrap

## ISETITS

- Enclosed factory tuned \& matched cartridge-style spring motor
- Sturdy box-style frame with heavy duty steel cross supports to all four corners for extra rigidity
- Low profile outlet riser \& open drum slot design, provide a non-crimping, flat smooth hose wrap
- Self-lubricated flange bearings \& multi-position lock ratchet
- Lubricated factory matched cartridge-style spring motor
- Heavy duty 25 mm O.D non-corrosive stainless steel rollers
- Cast iron lock ring with non-sparking bronze pawl

## SIGNATURE FEATURES

- Professional grade heavy duty steel construction
- Durable proprietary CPC ${ }^{\text {TM }}$ powder coat process
- Rolled edges \& ribbed discs provide strength \& safety
- Leading 2-year manufacturer's limited warranty
- Made in the U.S.A. - Sold \& Supported Worldwide
